

a Original crops

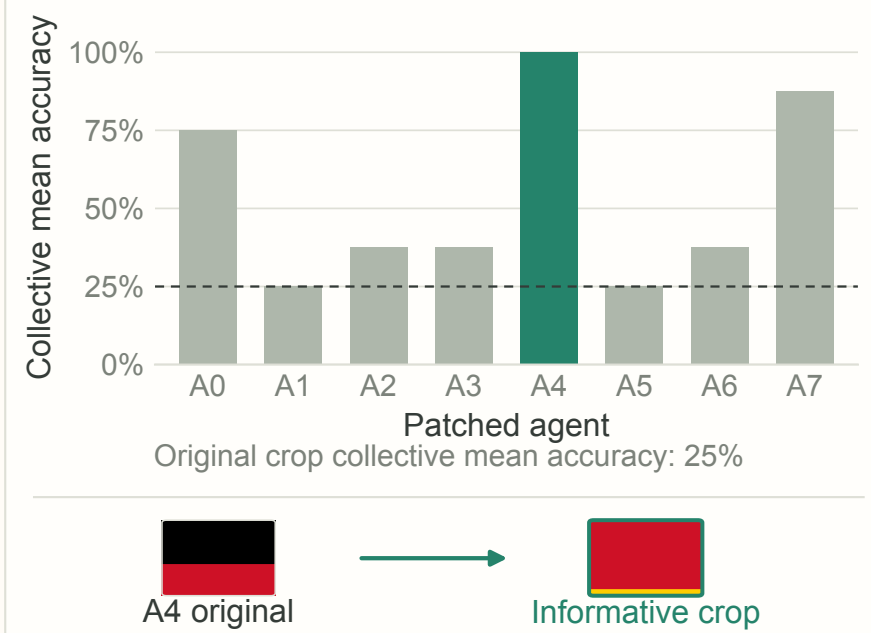

N=8, truth: Germany

Collective mean accuracy: 25%

b Agent-level causal tracing

One agent patched at a time

c Only A4's crop changes

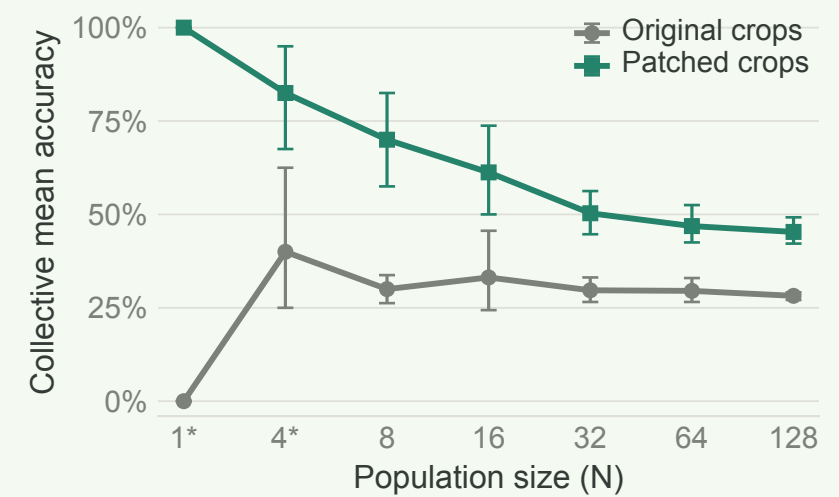

N=8, truth: Germany

Collective mean accuracy: 100%

d Effect of crop patching by population size

1/8 of crops patched*

*N=1: agent 4's original vs informative crop.
N=4: one patch covers 25% of population.
